Supplementary Figure 1: Spatial Omics Benchmark & Clinical Validation of the Reaction-Diffusion Sanctuary Model
Subcellular 10x Visium HD NSCLC Cohort Analysis (GSE301973, >210,000 Cells) and Prospective Decision Engine (cri-calc)

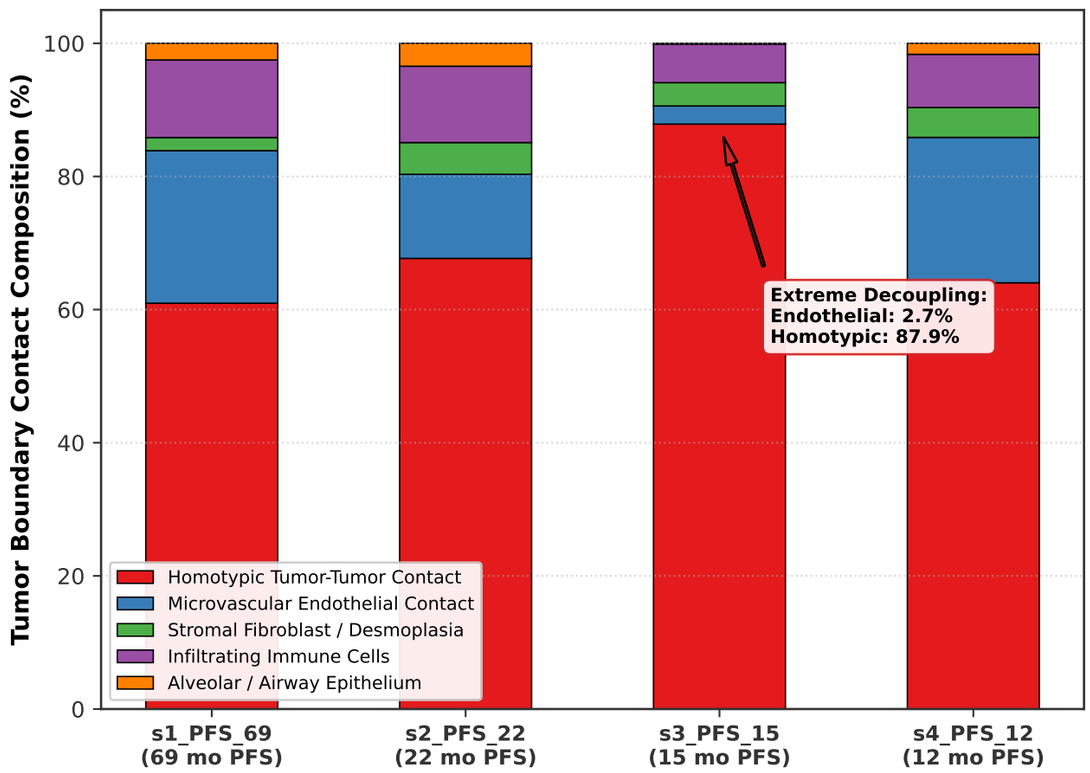

a In Situ Pharmacological Sanctuary Mapping in Real Human NSCLC Tissue

b Microvascular Endothelial Contact vs Progression-Free Survival (N = 4)

c Tumor Microenvironmental Neighborhood Architecture (GSE301973)

d Bedside cri-calc Score Engine vs Progression-Free Survival
